

## Data Protection Rack; Single DIN, Panel or Rack Mountable Protector

Transtector's DPR Series is engineered for high performance, compact versatile surge protection of GigE, 10/100BT, T1 and DSL equipment. The individual modules can stand alone units that are an inline component and can be mounted to the wall or DIN rail (clip included and functions as ground connector). Configured in the 19" rack chassis, the array of 16 modules act also as a cross connect. For the ultimate in scalability and reliability, Transtector's non degrading, high performance advanced surge protection devices are the answer.

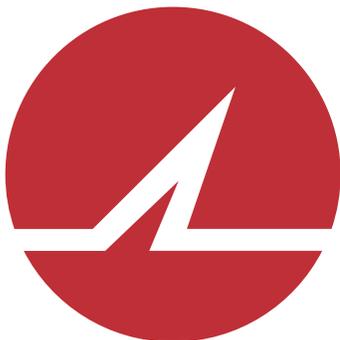

### Applications

#### Cross Connections

- GigE
- 10/100BT
- T1/E1
- DSL
